

TeamViewer – Web Connector

You are on the road and would like to provide support from a public workstation? We'll show you how in three easy steps.

1

Your task

Create an account at <https://login.teamviewer.com> and log in. (If you have already registered for a TeamViewer account, simply use your login data.)

2

Your partner's task

Ask your partner to start the customer module, TeamViewer QuickSupport, and to provide you with his or her ID and password.

<http://www.teamviewer.com/download/TeamViewerQS.exe>

3

Connect

Add a new computer or contact and connect by double-clicking. Then, simply enter the password in the appropriate field.

Your partners are automatically synchronized between the Web Connector and your computers & contacts list.
